REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention pertains a data transmitter for carrying out data communication with a data receiver via a plurality of networks, and a method thereof. The prior arts, however, do not teach a data transmitter and a method thereof for carrying out data communication with a data receiver via a plurality of networks with different characteristic using a high level protocol common to the plurality of networks and a lower level protocol inherent in each of the networks, such a transmitter has a feature of receiving error occurrence conditions in the networks from the data receiver, and variably controlling a packet length of the high level protocol common to the plurality of networks in response to the error occurrence conditions in the networks.

Hence, the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 1-8 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
